

Coda + iCoda > Installation procedure

What do I need?

1. 1 MacBook Pro or other Apple computer
2. At least 1 iPod Touch, iPhone or iPad
3. 1 Coda license with 1 iCoda license
4. A Wireless network (WiFi)

How to install Coda?

On the Mac

1. Download the Coda installer for Mac on our website
http://www.sportstec.com/Support_Downloads.htm
2. Install the package
3. After installation fill in your registration code

On your mobile device

Browse for “iCoda” in the App Store on the iPhone, iPod touch or iPad.

1. Open the App Store

2. Search for “iCoda”

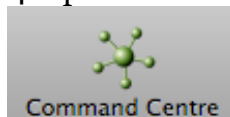

3. Download and install iCoda! (You need an Apple ID to do this!)

Activating iCoda

1. Connect your MacBook and the mobile device with the same WiFi
2. Open Coda on the Mac

3. Choose “New”
4. Open “Command Centre”

4. Click on “Mobile Devices”

5. Click on “Update licences”

Update Licenses

6. Under licenses you will find all active or available licenses.

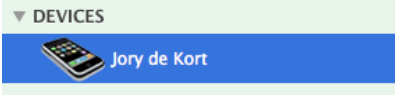

7. You need at least 1 Available license.

8. Open iCoda on the mobile device

9. Choose “Allow forever” when asked for it.

10. Under devices you will find your mobile device

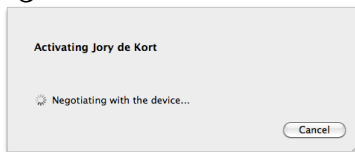

11. Select your device

12. On the right side choose for “Activate”

13. Click on “Activate” to activate the iCoda license on this device.

14. After activation you can now upload/download codewindows (left) and download the timelines from the device (right)
